

DD Mortgage Corporate Web Site

www.ddm.com.tr

Client: DD Mortgage

Founders of the DD Mortgage are Deutsche Bank, one of the biggest banks of the world and Doğan Group one of the biggest companies of the Turkish Private Sector. Company was established according to the Mortgage law numbered 5582 with the purpose of acting accordingly.

Scope of the Project:

DD Mortgage with its strong capital formation, expert staff, local and international expertise, products well suited for the customer demands, and flexible network system aims to implement the world wide used mortgage applications in Turkey. For this objective company needs a web site which uses state of the art technology and provides detailed information about mortgage to real estate investors. The site has to provide different payment plans for different requests.

Technology Used:

- Windows Sharepoint Services (WSS) v3.0
- Enterprise Content Management
- Workflows
- Document Management
- Integration with Backoffice Core Banking Application
- Microsoft C#.Net
- Ajax .Net
- Microsoft .Net Framework 2.0
- Microsoft SQL Server 2005
- Windows Server 2003

Simternet Solution:

DDM corporate web site uses special calculation modules, which are based on "calculation according to person and personal needs"; these methods will be widely used in near future. So the real estate investors can do the following from the site: budget calculation, monthly payment calculation, proposal comparison; with these calculation they will be able to choose the best product based on their personal specifications, income, and credit history, and also make pre-application.

Simternet have developed corporate content management system and calculation modules and also it has developed integrated applications which are used simultaneously with the banking and business intelligence applications running on the background

With www.ddm.com.tr you can access:

- DD Mortgage products,
- Budget Calculation,
- Monthly Payment Calculation Modules,
- Product comparison and comparison module for the products of the other mortgage companies,
- Current interest rates,
- With the Online Application form, you can make your application directly.

Conclusion:

The structure Simternet engineers build on Windows Sharepoint Services, serves to thousands of visitors everyday. To provide best services to members system was developed in a modular manner and this structure can be developed with the changes in the requirements of the sector.
