

TSKB Intranet Portal

Client: TSKB

Beginning its activities in 1950, Industrial Development Bank of Turkey (TSKB) is the first private investment and development bank of Turkey. The strongest financial institutions are under one roof. 32.6% of banking shares of TSKB, whose main shareholder is T. İş Bankası Group (50.1%), are traded in ISE (Istanbul Stock Exchange) National Market with the code of TSKB.

Scope of the Project:

To increase the total efficiency of the bank by means of servicing 500 staff under one roof where everyone can easily search and access the document library files as well as training programs and manage their daily workflows online.

Technology:

- Microsoft Office Sharepoint Server (MOSS) 2007
 - Enterprise Content Management
 - Workflows
 - Document Library
- Microsoft C#.Net
- Ajax .Net
- Microsoft .Net Framework 3.5
- Microsoft SQL Server 2005
- Windows Server 2003

Simternet's Solution:

Simternet offered Microsoft Office Sharepoint Server 2007 technology to answer TSKB Corporate Intranet's actual and possible future requirements including integration with TSKB's existing infrastructure.

For the project, Simternet developed custom workflows according to the requirements gathered from the departments of the bank and also created and integrated a user rights management tool with the bank's existing security software. Simternet also customized the corporate content management and the document library modules.

By the deployment of the project, TSKB staff has the following site map through their intranet webpage:

- News
- Announcements
- Circulars,
- Regulations,
- Legislations,
- Interest Rates,
- Campaigns,
- Online workflows,
- Document Library
- Newsletters
- People Search
- Reports Library
- Corporate Calendar
- HR process
- Picture Gallery

Conclusion:

The architect design created by Simternet engineers for the project and the primary modules developed for the first phase shifts TSKB's complete internal processes to this infrastructure.
